EXPERIENCE

Data Engineer

LTIMindtree, Pune • Jan 2022 – Present

Client: SCHNEIDER NATIONAL (Travel, Transport and Hospitality)

- Spearheaded the migration of 24 Oracle-hosted applications to Snowflake for Schneider National.
- Developed and enhanced DBT models using SQL queries, leveraging DBT features such as incremental models, views, tables, and macros.
- Utilized Git for version control to ensure seamless collaboration and code management.
- Created and managed target tables in Snowflake, ensuring efficient data storage and retrieval.
- Applied advanced Snowflake features, including streams, time travel, stages, and Snowpipes to optimize data workflows.
- Collaborated with the data modeling team to design and document dimensional and fact tables for migration.
- Worked with the consumption team to ensure data readiness and accessibility for business intelligence purposes.
- Utilized Power BI to create data visualizations, aiding in data-driven decision-making processes.
- Prepared comprehensive design documents detailing the structure and logic of data solutions before implementation in DBT.
