SUMMARY

Results-driven Data Engineer with 2.5 years of experience specializing in designing and implementing data solutions using DBT, Snowflake, and Azure ADF. Proficient in SQL, PL/SQL and Python for efficient data processing and transformation. Skilled in leveraging Power BI for data visualization and insights. Demonstrated ability to work effectively with cross-functional teams to deliver high-quality data solutions. A quick learner with a passion for continuous improvement and innovation in data engineering practices.

EDUCATION

Bachelor Of Engineering in Automobile Engineering

Ajeenkya D Y Patil University • Pune, Maharashtra, India • 2021 • 75%

Diploma

Satara Polytechnic Satara • Satara, Maharashtra, India • 2018 • 71.88%

SSC

Maharashtra State Board of Secondary & Higher Secondary Education • Pune, Maharashtra, India • 2015 • 83.60%

SKILLS

- Data Engineering: ETL Processes, Data Warehousing, Data Modeling
- Programming Languages: SQL, Python
- Data Warehousing Tools: Snowflake
- Data Transformation Tools: DBT (Data Build Tool)
- Data Integration Tools: Azure Data Factory (ADF), Azure Synapse Analytics, Azure Databricks (ADB)
- Version Control: Git
- Data Visualization: Power BI

EXPERIENCE

Data Engineer

LTIMindtree, Pune • Jan 2022 – Present

Client: SCHNEIDER NATIONAL (Travel, Transport and Hospitality)

- Spearheaded ETL (Extract, Transform, Load) processes, demonstrating expertise in designing and executing data migration projects.
- Led the migration of legacy Oracle databases to Snowflake, ensuring data integrity and minimal downtime.
- Designed and implemented ETL workflows using Azure Data Factory to extract, transform, and load data from Oracle to Snowflake.
- Utilized Azure Synapse for complex data transformations and analytical processing, optimizing performance for large datasets.
- Employed Azure Databricks for scalable and distributed data processing, leveraging Spark for efficient data transformations.
- Managed data storage solutions using Azure Data Lake Storage (ADLS) and Azure Blob Storage, ensuring secure and efficient data management.
- Implemented version control and collaboration practices using Git, maintaining a robust and organized code base.
- Collaborated with cross-functional teams to ensure seamless integration and functionality across the data pipeline.
- Developed and maintained documentation for data workflows, transformation logic, and migration processes.
- Conducted performance tuning and optimization of ETL processes to enhance data processing efficiency.

CERTIFICATIONS

- Microsoft Certified: Azure Data Scientist Associate
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Azure Data Fundamentals
- AWS Certified Cloud Practitioner
- Academy Accreditation - Databricks Lakehouse Fundamentals
- DBT Fundamentals

LEADERSHIP HONORS AND AWARDS

- Kunal Dhanyakumar Kharade - LTI - Larsen & Toubro Infotech Nov 2022: GoMx Award
